Under the auspices of

Scientific Programme

Monday, 10th October 2022

13.00	Welcome lunch at ICLO	- Radical Oophorectomy <i>V. Zanagnolo</i>
14.15	Welcome and Introduction	- Pelvic Lymphadenectomy <i>F. Landoni</i>
17.30	Course Directors	
	PELVIC ZONE Notes of Surgical Anatomy <i>A. Maggioni</i>	CADAVER DISSECTION with Tutors
	- Retroperitoneal Anatomy and Pelvic Viscera	- From Simple to Radical Hysterectomy
	Review of Surgical Steps - General Principles of Peritonectomy <i>W.C. Helm</i>	- Rectosigmoid Colectomy - Anterior & Total exenteration - Pelvic Lymphadenectomy - Surgical Pitfalls
		20.00 Dinner with Participants & Tutors

Rationale

The tutors will show the surgical procedures necessary to achieve complete cytoreduction in advanced ovarian cancer. During the course, the anatomical structures in all abdominal quadrants representing the surgical fields for ovarian cancer cytoreduction will also be analysed in depth. Participants will be shown what they need to know and what to avoid in debulking surgery.

Objectives

- To consolidate the study of the anatomical structures of the pelvis and upper abdomen,
- To create an opportunity for practical training,
- To provide experience that will prove essential in the OR.

Italian CME Credits

The course will provide educational credits (ECM) to specialists in Gynaecology and Obstetrics, Oncology and General Surgery

Provider: Istituto Europeo di Oncologia, ID 207

Educational hours: 10

Objective: contenuti tecnico-professionali (conoscenze e competenze) specifici di ciascuna professione, di ciascuna specializzazione e di ciascuna attività ultraspecialistica. malattie rare

Scientific Programme

Tuesday, 11th October 2022
