

# **Hands-on Surgical Approaches to the anterolateral skull base, reconstruction and indications**

**Guided dissection to the antero-lateral skull base including the orbit**

**OCTOBER, 23 - 25 2026**

**ICLO VERONA – Via Evangelista Torricelli 15/A**

**Master Director:** Prof. Antonio D'Agostino

## **Faculty:**

Antonio D'Agostino, Matteo De Notaris, Lorenzo Trevisiol  
Vittorio Favero, Giovanni Gerbino, Andrea Talacchi

### **23 October, Friday**

13.00 - 13.15 Welcome and introduction

13.15 - 15.15 Surgical anatomy of the orbital frame, orbit, periorbit and frontal sinus; Imaging, diagnosis and timing in fronto-orbital trauma and surgical approaches (Infraorbital, subciliary, transconjunctival, Lynch, upper-bleph, eyebrow, coronal).

*A. D'Agostino, A. Di Somma, L. Trevisiol, V. Favero,*

15.15 - 15.30 *Coffee Break*

15.30 - 18.00 Cadaver Lab – *All Faculty*

### **24 October, Saturday – Morning session**

08.30 - 10.00 Zygomatic-orbital fractures: classification and management; Frontal sinus and orbital roof fractures – algorithm of treatment.

*A. D'Agostino, L. Trevisiol, V. Favero*

10.00 - 10.15 *Coffee Break*

10.15 - 12.45 Cadaver lab – *All Faculty*

12.45 - 13.45 *Lunch*

### **24 October, Saturday – Afternoon session**

13.45 - 14.45 Orbital tumors: entities and management of complex fronto-orbital reconstruction;

*A. D'Agostino, G. Gerbino,*

14.45 - 18.00 Cadaver lab – *All Faculty*

### **25 October, Sunday**

08.30 - 10.00 Cadaver Lab – *All Faculty*

10.00 - 10.15 *Coffee Break*

10.15 - 12.15 Cadaver Lab – *All Faculty*

12.15 - 13.15 *Farewell Lunch*
